energy therapies

REIKI

Based on the principles of chi, or universal life energy, Reiki promotes healing through methods that are rooted in spiritual tradition. The therapist's hands are gently placed over head, chest, abdomen, and back, producing a calming and nurturing effect. Wear light, loose-fitting clothing for this service.

60 minutes

CRANIOSACRAL

The craniosacral system encompasses the ebb and flow of cerebrospinal fluid. Using light touch, the therapist monitors this motion to determine where restrictions are located. This technique gently encourages optimal fluid movement to nourish all tissues of the body, causing a self-correcting response. The result is a deep sense of calm, well-being and greater self-awareness. Loose-fitting, light clothing is recommended.
